EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the first sentence of the specification (inserted in the transmittal of 2/28/02), after "July 17, 2000" insert -- now abandoned --.

The following is an examiner's statement of reasons for allowance: applicant's remarks have been relied upon in reconsideration of the claims based on the recent amendment. Additionally, the Examiner notes that Inaba's toner having the noted wax is designed to prevent offset and give good low temperature fixing (col. 2, l. 29-32). These features would not be of concern in Horikoshi where flash fixing is performed because there would not be contact of a fixing member to give offset in a flash fixing process. Consequently, the artisan would not look to Inaba for a disclosure of a wax for the primary Horikoshi reference because the methods of fixing are substantially different between the primary and supporting references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
